

# Size Conversion Information

## Measuring for a Proper Fit:

- Take all measurements in inches.
- If the person's measurements are between sizes, order the larger size. For example: if a man's neck measures 15¾ inches you should order size "large" in a short sleeve shirt or a "16-16½" in a long sleeve shirt.
- For greatest accuracy, have someone take measurements rather than allowing customers to measure themselves.
- The tape measure should be pulled snug, not tight.
